Hello Admin,

Welcome to G Suite for Education! We reviewed your application and are excited to upgrade your domain. I'm including a selection of resources to help guide your implementation.

**Best Practices for Deployment** - Use the resources below to deploy G Suite to the technical best practice, or find a partner here to aid with the technical setup.

- Google for Education Privacy & Security Information, access FAQs about student data protection and privacy
- G Suite Domain Best Practices, overview the possible ways to set up G Suite for EDU
- G Suite for Education Deployment Guide, effectively move your organization to G Suite
- Google Cloud Directory Sync, synchronize data with your LDAP directory server
- Google Cloud Password Sync, keep your users' G Suite passwords in sync with Active Directory passwords
- G Suite Release Calendar, keep track of upcoming features rolling out to your domain

**In the Classroom -** Now that you have access to G Suite for Education, utilize the Google for Education Training Center and the following resources to make the most of G Suite tools, source best practices, and train your teachers to become Google experts.

- Google for EDU Certifications, demonstrate knowledge with Google Educator, Trainer, and Innovator Certifications
- Training for G Suite, add a free Chrome extension that adds a virtual trainer to G Suite apps
- What's New in Classroom, description new features in Classroom
- 45 Ways to Use G Suite for Education in the Classroom, great use cases to get started
- Google for Education Professional Development Handbook, best practices for training and development.

**Connecting with others** - Below, you'll find ways to connect with educators at schools that have Gone Google.

- Google Educator Groups (GEGs), communities designed to connect Google educators
- G Suite Admin Community, discuss Chrome & G Suite with other admins
- Chromebooks for Education Community, discuss Chromebooks in EDU
- Google for Education Blog, the official source for Google for Education news
- Google for Education on Twitter, follow for product announcements, program updates, and industry news

If you have any technical questions during setup, please contact support. We look forward to your school's deployment!

Thanks,

AntonioM
Technical Solutions Engineer, Google Cloud Platform - Warsaw
